IMMERSIVE TECHNOLOGIES

EXPECT RESULTS

Get the most out of your simulator purchase with the latest version of SimControl - including vital updates and new functionalities.

- Operator displays from the conversion kit now visible on the Trainer Station – in both live and playback modes.
- A new analytics dashboard available in SimCloud.
- New assistants, benchmarks and reports for improving the production efficiency of wheel loader operators.
- Digging material configuration for Underground Loaders to improve training efficiency.
- A range of additional machines, events and errors for both Komatsu FrontRunner® and Cat® Command for Hauling.
