Virtual Machine

Enhance safety and equipment availability with targeted training in machine inspection, control usage, and key procedures.

IMMERSIVE TECHNOLOGIES

EXPECT RESULTS

eLearning

FOUNDATION

- Covers foundational knowledge
- Self-paced and interactive
- Scalable

Pre-Start Inspection

FOUNDATION

- Familiarization
- Know your machine components

OPTIMIZATION

- Custom-tuned to likely and/or historic machine faults specific to site
- Identify issues before they become incidents

Controls

FOUNDATION

- Correct usage and function
- Know your machine controls

OPTIMIZATION

- Build procedural memory
- Support for aftermarket technology

Tasks

FOUNDATION

- Everyday machine operation processes
- Know your machine functions

OPTIMIZATION

- Complex, multi-step processes
- Build procedural memory
- Accuracy and response to machine events and alarms
